The publishers will not hold themselves responsible for any error that may occur beyond the amount charged for the advertisement.

Mr. V. B. PALMER is agent for these papers. Advertisements left with him will be immediately forwarded.

AYER'S CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

...upon the bank thereof shall grow all manner of trees for meat, whose leaf shall not fade, neither shall the fruit thereof be consumed: it shall be for meat and the leaf thereof for medicine."

...one or two sticks recently long ago, and ...years ago new medicines ... I have repeatedly used your Cherry Pectoral for Whooping Cough and Influenza and I have no hesitation in declaring it a complete remedy. For many years I have been afflicted with these diseases and the use of your Pectoral has always afforded almost instant relief. JAMES GLOVER.

We attest the truth of the above statement

H. McG. ...Editor of the Nashville Whig.

H.M. ...Memphis Omnibus.

FOR A CONSUMPTIVE COUGH

Pittsburgh Pa., Feb 25, 1851.

Dear Sir:—For three years I have been afflicted with a cough, so distressing as to deprive me of sleep for ...nearly one-third of the time. I was obliged to sit up in my chair, my cough would suffocate me when I lay down. Having used many remedies without relief, I called into the CHERRY PECTORAL, of which Providence has ...me a together.

I am with gratitude yours,

JAMES M. ...

...PRESIDENT OF AMHERST COLLEGE ...EDWARD HITCHCOCK, M. D., LL. D., ...AYER, M.A. I have used your CHERRY PECTORAL in my own case of deep seated bronchitis, and have watched its ...in other, not less distressing cases of pulmonary complaint, for the relief of which it is ...to be of any benefit, you are at liberty to ...think proper. EDWARD HITCHCOCK

Amherst, Sept. 12, 1849.

...other distinguished authorities who have ...ed us to recommend this preparation as the ...best we can to them for affections of the lungs, are:

...Silliman, Yale College,

...Valentine Mott, New York,

...Cleaveland, Bowdoin Med. College,

...Butterfield, Ohio Med. College,

suspicions of the authorities. It is a remarkable fact, that the Baron had actually stood still the pay of the police, a situation which he probably coveted, only for the purpose of lulling any suspicions that might arise into another channel.

Becoming deeply enamored of the beautiful Mrs. Trewyth, he sought vainly to gain her affections, and at last, in a silly fit of despair, showed her the ring which Mr. Brooks had sent him as the leader of the highwaymen, three years previously, and appealed to her to become his, since she had once been chosen to be the instrument to save his life. So far from this confession having the effect of softening her feelings, she became all the more prejudiced against him, but promised faithfully to keep the secret, if he would not repeat the offensive proposals. Pregli did not come near her for a week, but at last attempted to carry her off by the aid of his satellites, and being foiled in this, information was given, which led to the arrest, as before stated.

Three of the Baron's men have since been arrested, and at his country residence a large quantity of articles were found, all of which were identified as having been stolen.

WEDNESDAY, JUNE 16, 1852.

WHIG NOMINATIONS.

FOR GOVERNOR,

William G. Crosby

OF BELFAST.

FOR CONGRESS

ISRAEL WASHBURN, JR.

The European and North American Railway.

The delegates of the Provinces of Canada and Nova Scotia have been unsuccessful in their endeavors to obtain the aid of the British Government in the construction of the Halifax & Quebec Railway, but have made such arrangements with private capitalists, as to render the construction of the road, from Halifax to the easterly boundary of Maine certain. We copy from an article in the *Halifax British North American*, which contains facts interesting to Maine people in relation to this matter.

"Being satisfied that, fresh negotiations between the provinces for the construction of a line of railway on joint account, on the basis of the adoption of the ministry or Major Robinson's line would be wholly fruitless, and that delay in securing the completion of the most important sections of the Commercial line would lead to great public dissatisfaction, they have taken the responsibility of entering into negotiations for the construction of the great trunk line in Canada, between Montreal and Hamilton (the completion of the line between Montreal and Quebec being likewise secured,) and also of the line in New Brunswick, between the frontiers of Nova Scotia and Maine, through the city of St. John; forming sections of the line known as the European and North American line. We have had an opportunity of learning the precise nature of these arrangements, which although varying in details, are substantially the same for both Provinces, and as great public interest is felt in the subject we lose no time in placing them before our readers. The delegates have succeeded in obtaining offers from eminent British contractors of a different character from any hitherto made, and which are not open to the grave objections entertained to former propositions. It has not been deemed expedient by the delegates to connect the construction of the railroad with any extensive scheme of placing large tracts of the public domain at the disposal of the contractors. The road is to be built and fully equipped by the contractors at a certain price, to be stated after proper surveys have been made. The contractors who are parties of the highest respectability, including in their number Mr. Peto, M. P., Mr. Brassey, M. P., Betts and Mr. Jackson, M. P., pledge themselves to construct the works on the same terms as to profit as they have recently done similar works on the continent of Europe, where they have been exposed to active competition. They will of course be guided *as to the description of roads* by the wishes of the parties employing them. The works in Canada are to be constructed on account of companies which have been already incorporated, and which are entitled to the benefit of the railway guarantee act, that is to bonds of the companies guaranteed by the government for one half the cost, and which bonds form a first charge on the revenues of the road. These bonds the contractors are to receive in payment for one half the cost of construction. They are to receive the bonds of the company for three tenths of the amount, which will form the second charge on the revenues of the road. They are likewise to take one-tenth in the stock of the companies. This leaves only one-tenth to be provided by subscription to stock, and in the event of any portion of this one tenth being subscribed for by municipal corporations, or by government bonds are to be taken for the same at par. Such, briefly, are the terms offered to Canada. The tenders of the contractors are to be submitted to two disinterested engineers, one appointed by the government, the other by the contractors, who are to endeavor to reconcile any difference, and reduce any overcharge, and in case any insurmountable difficulty should arise, then the contractors are to be paid what is deemed reasonable by such engineer, for their plans and estimates, which are to become the property of the companies. With regard to New Brunswick, the road is to be constructed by the company already incorporated, and owing to the forethought of the government of that Province, the facility bill, a wise measure last session, and will be immediately assented to, so that nothing need prevent the company from commencing operations immediately. The offer to New Brunswick is substantially as follows: Assuming the cost of the road at £1 million sterling, the contractors will take £1,000,000 in stock, which in addition to that subscribed by the Province (£250,000) and whatever may have been or may be obtained from the public in New Brunswick, will constitute the total stock of the company. A loan of £250,000 on the same terms as the Canada loan, which will be a first charge on the revenues of the road, is to be given by the Province, and the remainder of the million is to be provided by bonds of the company, all which securities are to be taken at par, and are to bear 6 per cent. interest, and to be payable 20 years after date.

Such are the propositions which the delegates have brought out with them, and we believe that they will be received with favor generally throughout the three Provinces. After the main road through New Brunswick has been completed, the contractors have agreed to construct a branch to Miramichi, on precisely the same terms of payment, in proportion to cost. We understand that the delegates have also obtained an offer from the same parties, for the construction of the Nova Scotia section of the line.

We have no doubt that a cordial co-operation of the Government and people of Nova Scotia may be relied on as to the construction of our section of the line on some plan, but at present it would be premature in us to say more than, that the scheme, as a whole, seems a perfectly feasible one, and we congratulate the delegates on the successful issue of their mission, believing that these arrangements will be even more satisfactory to the people at large, than those which it was the immediate object of their mission to effect. It is likewise gratifying to know that the two interesting neighbors in Maine and Massachusetts will have the result of the late session with the greatest satisfaction—and that they will be stimulated in their efforts to complete the Main section of the European line, which will give uninterrupted communication at all seasons of the year, between Halifax and the Detroit river, as well as Boston and New York."

"Pierce and King."

Our neighbors of the Democrat and Jeffersonian, have hung the Pierce and King banner to the breeze from their several office windows into the faces of all sober travelers, who are forced to read the names of these candidates whether they will, or not.—[Whig.

The Whig don't like it—not he—but he will be compelled to see those names in conspicuous places a great many times, not only this year, but during the four years commencing the 4th of March, 1853.—[Democrat.

Like it? Oh, yes, we do—that is, we don't care what complexion our neighbors may be guilty of, but we must confess we should not like to see the banner triumphant next November, and we don't mean to.

You have no objection to be ruled by a King *elected by the people for four years*, have you neighbor?—[Jeffersonian.

Of course not, if you can elect him.

The Concord Convention.—The Democratic State Convention held at Concord, N. H. on the 10th, passed a series of resolutions. In the first, it congratulates the "Democracy of N. H. and elsewhere, on the recent victory at Baltimore!" What victory? Did they expect any other than a Democrat would be nominated?

The fifth resolution congratulates the Democracy on the nomination of General Pierce—lauds his wisdom as a statesman—his gallantry as a soldier—the generosity of his heart, and the purity of his character—which have been long and extensively admired by his fellowmen through the whole country—his nomination is characterized as a distinguished mark of those noble qualities of mind and heart, which have stamped him as New Hampshire's most nobly gifted son.

Warning to Boys.

Two lads by the name of Stetson and Grant, got into an altercation at Hampden yesterday, which may result in the death of one of them. Stetson is about 14 years of age and Grant 16. Grant was at work upon the road, and Stetson coming along, got into a conversation with the men, which led to an attempt on the part of Grant to remove him forcibly. In the struggle Stetson drew a knife and wounded Grant in the abdomen! The wound is of so serious a character, that it is feared Grant will not recover.

The *Boston Journal* says that General Pierce is a lineal descendant of the family of Percy's Dukes of Northumberland.—*Jeffersonian.*

The democrats are getting strong. They presume largely upon the gullibility of yankees in supposing that they are going to swallow Dukes and Kings without a why or a wherefore.

By the way, if Pierce was a Percy—how are the Boston Times account for his name being now pronounced *Peerce*.

Mr. Webster's Gift to the City of Boston.

His Honor, Mayor Seaver, has received from Hon. Daniel Webster an elegant presentation copy of his works, in six royal octavo volumes, accompanied with the following autograph letter.

WASHINGTON, May 30, 1852.

Hon. Benj. Seaver, Mayor of Boston.

My Dear Sir.—I beg leave to present this copy of my Works to the City of Boston, for the benefit of the City Library, and will be obliged to you to dispose of it accordingly.

I am, with sincere regard, your friend,

DANL. WEBSTER.

FROST NIP.—Rev. Howard D. Very, Prof. Chapman, and four students belonging to Acadia College, were drowned on Tuesday of last week, by the upsetting of a boat near Horton, Nova Scotia. They were on an expedition, for the purpose of collecting mineralogical specimens, when the boat was swamped by a heavy sea. One of the boatmen was also drowned.

The first sod of the St. Andrews and Quebec railroad was turned, with appropriate ceremonies, on the 5th inst.

Panorama of the Rhine.

The attractions will be great at Market Hall during the remaining evenings of this week. The Panorama has a fine reputation, and must be worth seeing. The Italian Pantomimes are always entertaining. Those who have not seen them should see them, and those who have will want to see them again. These together with the music are destined to draw crowds.

SUDDEN DEATH.—The wife of William Heffernan died very suddenly yesterday, and it is feared that there was foul play in the matter. She has been a woman of intemperate habits, but was about as usual yesterday, and appeared quite well at 12 o'clock noon; but at two P. M. she was a corpse. We understand an inquest was held upon the body, but the results we have not learned.

HOW GEN. SCOTT TOOK PIERCE'S NOMINATION.—When the nomination of Gen. Pierce was announced to Gen. Scott, he said: *That I shall have one vote sure.* Which means that the two American heroes are on the best terms, and that Gen. Pierce had declared that he would give his vote to Gen. Scott for President. So says the Washington correspondent of the N. Y. Times.

☞ On Saturday evening, Langley & Co's Express car, at the Boston and Maine depot, was robbed of sundry packages and parcels, the value of which is not yet known. The robber probably secreted himself in the depot previous to its being closed for the night.

☞ A smart shower, yesterday morning, gave the Rose of Nature a good washing and lent our eyes a helping hand in the adornment of creation.

☞ Another break in the levee below New Orleans has taken place, and much damage has been done.

☞ Navy pastures are in full bearing market, six days from Bermuda.

☞ The cholera has broken out among the negroes on Roanoke river, Va.

CONGRESS.

WASHINGTON, June 12.

Senate. The Senate is not in session to-day, having adjourned over until Monday.

House. Mr. Hunter introduced a bill to incorporate a Wesleyan Collegiate Institution at Washington, which was referred.

The house resumed the consideration of the bill granting right of way and lands to Florida and Alabama for railroad purposes.

Mr. Jones of Tennessee moved to refer it to a Committee of the Whole on the State of the Union. He said the House had been in session six and a half months, and little or nothing had been done because much of the time has been taken up on the bills reported for the benefit of railroad companies in the new States. No committee has made a report under the call, except that on Public Lands, for the last four months.

If this course shall continue to be pursued, and the railroad bills pressed to a passage without being referred they would not get through calling all the committees before next December. He considered every one of those railroad bills as giving bounties to corporations, and preferred the graduation policy to any other. If Congress is determined to give away the lands, they should resort to general and not partial legislation.

Mr. Jones of Tennessee moved that the bill be tabled; but the motion was lost—yeas 79, nays 100. He further consideration of the subject was postponed to the second Friday in July.

The House then went into Committee on the Indian Appropriation bill. Mr. Cabell of Florida made a strong anti-Scott speech, strongly denouncing him for silence on the Compromise question, declaring him to be in the hands of Seward and the Free Soilers, and affirming that the Whigs of the South would rather vote for a Democrat than a man who refuses to avow his principles.

Mr. Stanly followed in defence of Scott, although expressing his preference for Fillmore—he asked if the Free Soilers said that Scott is going to be elected, and join in and we throw them off? He said that Cabell ran Taylor without a platform, and why not Scott? Clay, Cass and Polk had refused to write letters; why did he sulk with them and blame Scott? His pronounced all platforms humbug, and hoped the Whigs would not adopt one—he made some humorous allusions to the Democrats and their platform—to Gov. Johnson of Pennsylvania—to Gov. Johnson of Virginia—B. F. Hallet and others—he also spoke of a coalition between the Free Soilers and Democrats in Massachusetts and the coalition which elected Lloyd Speaker of the House, and said some hard things about their conduct. In the conclusion, he said he would support no man for President—Scott nor nobody else—who will conceal his opinions. If he supposed Scott would do so he would speak of him as the gentleman from Florida had spoken; but in the pending struggle he would fall on the Vermont boy at Lundy's Lane, when he laid wounded, and said, "Go and form. I am dead, but there are plenty of cartridges in my pocket." The speech excited considerable excitement and amusement.

Mr. Schoolcraft followed, speaking against the Compromises as finality; conceiving no law to be so perfect that it should never be altered; he also opposed grants of land to new States for railroad purposes.

The Committee then rose and the House adjourned.

Aid to the Collins Line.

WASHINGTON, June 12.

The despatch sent you yesterday relative to the appropriation to the Collins steamers having passed the Committee of Ways and Means, is confirmed. The amendment was adopted by one majority. It will then go to the House in good shape, and will unquestionably be passed by that body.

Fatal Result of a Duel.

CHARLESTON, June 13.

A duel was fought on the 2d inst., at Fort Mellon, Fla., between Col. Grommé and Major Jones of Hopoota. They fought with bowie knives. Major Jones was killed. Subsequently, Col. Grommé went to St. Augustine, and surrendered himself to the officers of justice.

Discovery of Indian Relics.

A correspondent sends us the following letter relating to the discovery of interesting Indian relics in Vassalboro, which will be found of interest.

A fortnight since some very interesting memorials of a race now nearly extinct, were ploughed up in a field upon the farm of Jacob Butterfield, Esq., of East Vassalboro. The field has long been cleared, and for many years a smooth grass field, and therefore least supposed to abound within its even surface the relics of the Red Man's civilization.

The place where these relics were discovered is on the summit of a gradual ascent, some 200 rods distant from a beautiful Lake. The adjacent soil is of a black gravelly loam; but in the immediate locality, for a distance of several feet, the earth is of a reddish hue, produced, without doubt, by the decay of bark or wooden vessels inclosing the burial utensils. Those are four in number, different in shape and material, but bowling equal skill in the workmanship.

One is an adze shaped implement slightly curving, in length six inches, the upper and lower edges forming a bevel perfectly true. The stone of which it is wrought is Hornblend.

The second in number, is a broken rod, half an inch in diameter, and five inches long, having the unbroken end sharpened to an edge as sharp as it is compact granite. Another, and third, resembles most what machinists call a gouge, although somewhat injured, it shows the same skillful workmanship. It is about the same size as a turners gouge and is wrought of coarse granite.

The last of the number is a common spear head, fashioned however with more than usual care, and is made of slate rock.

As I looked upon, and handled these implements so curious and interesting, a longing desire to trace their history seized me. This is impossible. The history of his civilization, the Indian buried with them.

While the half civilized Iowa thanks to their history buried in their rude tombs, the savage tribes of to-day begins the rapid decay of his history. In a few years mystery and silence hang over his frequented haunts; fresh mould scattered and decayed utensils of his savage and domestic life, alone give signs of his former presence.

Thus gives place to time, his grave only remains; and within is buried with him the unwritten and unknown history, his bolt of wampum, his pony and his scarred stone, the weapons of war and of the chase, or the rude utensils with which he fashioned his canoe and wigwam.

DOWNER.

Fire.

This morning, between 12 and 1 o'clock, the old building known as the Drew Block, on the corner of Exchange Street and East end Kenduskeag Bridge, was discovered to be on fire, and in a few minutes was entirely enveloped in flames. The building was owned by Messrs. W. T. and H. Pierce, Mr. Savery and Gen. Veazie, and insured at the Portsmouth, N. H. Mutual office. The building was occupied by J. M. Crombie & Co. as a Grocery Store, and T. McWeeny as a Clothing Store. The goods of Mr. McWeeny were all consumed—insured at the People's office, Boston, for $1600. The goods of Messrs. Crombie & Co. were partly removed—insured at the Portsmouth, N. H. Mutual office for $1500. The store adjoining, occupied by J. Snow & Son, Grocers, was but little injured; they removed all their goods—insured at the Merchants' office, Salem, Mass. for $800.

WASHINGTON, June 12.

An immense swarm of delegates to the Whig National Convention from the South and West, are pouring into the city—the number reaching already some 400. Several of the prominent members have called a caucus for to-night to decide upon certain interesting measures.

Webster's chances for the nomination are growing brighter every moment, and he is now openly talked of as the Compromise candidate.

It is rumored that should the Convention be unable to select a candidate upon the first or second ballot, that President Fillmore has prepared a note to be read before the Convention, declaring the nomination in favor of Mr. Webster.

The Union of to-morrow will publish the speeches of Messrs Pierce and Woodbury on the Catholic question against in New Hampshire some time since.

WASHINGTON, 14.

Mr Webster's chances continue to improve, and he now considered in advance of Fillmore, and fully equal to Gen. Scott. Cassius has dropped Scott and will go either for Webster or Fillmore.

It is reported that Gen Scott will cause a satisfactory letter to be read in case of his receiving the nomination, in which the Democracy say will like Gen. Winfield.

The chances of Senator Jones of Tenn. for the Vice Presidency, are very favorable.

Senator Pierce of Maryland will probably be elected President of the Convention.

NEW YORK, June 12.

The Scott delegates from Maine, with Philip Greely, and others of Boston, left here this morning for Baltimore. The other New England Delegates are in council here, the Hon. Rufus Choate in the Chair. The Webster men are in fine glee. They are sure of 51 votes on the first ballot.

From the South.

BALTIMORE, June 12.

The New Orleans Mails to June 6th, came through this morning.

Major Kelly and J. S. Thrasher, are about starting a Scott paper in N. Orleans.

Advices from Havana to the 28th ult., have been received, but the news is not important.

Later from California.

The steamship Illinois arrived at New York on Saturday morning, from Aspinwall, bringing California dates to May 15th. By this arrival the usual semi-monthly amount of gold has been received, viz: about two millions.

The following in regard to the Chinese exodus we take from the Alta Californian:

"The excitement in many parts of the mines, in opposition to Chinese labor among our mountains, is evidently on the increase. Mass meetings have been held at the North and South, corresponding committees appointed, and in general steps taken to clear the entire mining region of the Celestials. Several very interesting communications have appeared in the public prints, purporting to emanate from the Chinese, showing the benefits to be derived from their great emigration to this country, and the importance of the consequent trade will spring up between California and China. But these appear to have little effect upon the miners, who seem bent upon the work of expulsion.

From statistics carefully prepared, it appears that the number of Chinese who arrived here between February, 1849, and May, 1852, is 11,052.

It will be quite safe to set down the total Chinese population now resident in California at 12,000; and its increase will probably be from 7000 to 10,000, between this and the first of January next. Under these circumstances, we do not see any imperative necessity for the line and cry which is attempted relative to this particular class of foreigners. The French and Spanish American population both exceed the Chinese very largely at the present moment, and no one fears danger or misfortune from their excessive numbers."

The Chinamen have written to Hong Kong to stop any more of their countrymen from emigrating to the gold regions.

Governor Bigler is severely ill with a bilious attack.

ARREST OF AN ESCAPED CONVICT—DESPERATE RESISTANCE.—It will be recollected that a convict named William Mulloy, escaped from the State Prison in Charleston a few days since, by climbing over the wall, as stated in the Courier at the time. Mulloy eluded the officers until Saturday afternoon, when, after a most desperate resistance, he was captured. The Gazette gives the following particulars of the matter:

"Information was obtained by Constable Clapp of the intention of the prisoner to leave for St. John Saturday afternoon, and constables Hopkins and Holmes were sent out to identify and arrest him. While walking down Long Wharf they noticed an individual who answered the description, and one of them said, "William," whereupon the person addressed, who proved to be Mulloy, took to his heels and ran down the wharf closely pursued. He dodged through a store and gained T. Wharf, but finding that he was headed off, he turned and ran up the north side of Long wharf, where he was seized by a person who attempted to retain him, when Mulloy jumped into the dock and swam towards T. wharf again, climbing up the side of a vessel. The officers at once pursued him into a store, where Mulloy drew a sheath knife, and brandishing it, swore that he would not be taken alive. The officers were unarmed, and after making one or two desperate passes at them he made his escape, and again jumped into the dock, and took refuge under the north end of T. wharf, where he hid himself with such security that his arrest was impossible. Hopes were entertained that the tide would abandon him, but finding that this was not the case, police officers John C. Warren and Edward Newhall commenced a thorough search, swimming under the wharf. About 7 o'clock they saw his hand, and at once summoned him to surrender. Mulloy said he was an Irishman, and would not give up to a——Yankee. Threats were then made, but he persisted in stating that he would rather die than yield. He was then told that unless he yielded he would be shot, but his replies were only the more insulting. A pistol was then handed down to the officer, who fired, wounding him in the leg; but still Mulloy did not give up, but, while changing his position from one spot to another, he was seized and taken on to the wharf, having eluded the officers three hours. He was at once conveyed back to his old quarters at Chatlestown, where he has an unexpired term of six years for theft to serve out. He is a desperate character, and the officers who effected his arrest deserve the greatest credit."

A CARD.

THE officers and members of Hesperus Co. No. 3 request their absence thanks to Messrs. J. M. Crombie & Co. for the liberal supply of refreshments furnished after the fire on the 15th inst.

E. C. FRASER, Clerk.

Bangor, June 16, 1852.

25,000 Sold per Year!

The Unsurpassed and Unsurpassable

Bay State Stove,

OF SIX SIZES, of heavy and smooth castings—price from $15 to $50—celebrated for its whole cooking apparatus, carrying off the smoke in broiling, and not to be exceeded in baking, frying, boiling, &c. &c., for its durability and economy—may be set as heretofore, at the well-known and long established

Stove, Furnace and Range

DEPOT,

Nos. 80 & 82 MAIN STREET, and 2 and 4 WALL STREET, OP.

N. JOHNSON,

Who is SOLE Agent, and always has been, for this market, for the sale of the celebrated Stove above named, of which 25,000 were sold the past year, and of which some 30,000 will not be more than sufficient to supply the demand the present year.

The BAY STATE is sold and warranted as usual. Returned after an unsatisfactory trial of 30 days, the price paid will be refunded, together with interest and cost of returning.

Those purchasing the BAY STATE, and desirous of repairs, are not subjected to the trouble of sending to Rhode Island or New York for castings, but can get them in Bangor for them. AS I HAVE THEM ON HAND!

A CHALLENGE OF $50.

It is proposed, that 50 Stoves of six sizes, of any other pattern than the BAY STATE, (for which I am sole Agent,) cannot be produced which will compare with the 50 I now have on hand, in thickness and smoothness of Castings, or in facility and capacity of broiling, baking, boiling, or other cooking requisites.

IF the public are especially requested not to mistake a Stove called the "IMPROVED" BAY STATE, which is a cheaper and inferior article of ill-cast and less durable castings, and which is sometimes advertised without the word 'Improved' as a prefix, for the original and genuine BAY STATE, which has been so generally and thoroughly tested and admired.

All other kinds of STOVES constantly on hand, as above, which will be sold at reduced prices.

N. JOHNSON,

Nos. 80 and 82 Main St., and 2 and 4 Wall St.

Clapboard Planing!

A Challenge

THE subscribers are running one of Woodbury's Stationary Knife machines for planing Clapboards, and claim to be able to please all kinds and planes better than can be done by any other machine now known. And as in a recent estimate for a contract to build the new High School House in this city, a stipulation was inserted that *the Clapboards should be planed by hand*," thereby intimating that HAND PLANING is superior to MACHINE, we seek now to know that we challenge any person to plane any quantity of Clapboards from 100 up, hand by hand, (a fair day's work being done,) against the like quantity planed by us with our machine.

A committee of three practical workmen, mutually chosen, to decide the merits of the work, upon whose decision the losing party shall forfeit to the winner

FIFTY DOLLARS.

We wish to have all kinds and qualities of Clapboards, wet and dry, submitted to this test. We will show our great superiority on the *poorest* as well as the best quality

A. & E. DOLE & CO.,

Through to San Francisco AT REDUCED RATES.

New York and San Francisco STEAMSHIP LINE.

THE NEW STEAMSHIP

UNITED STATES,

CHARLES C. BERRY, Commander,

Will take her departure for Aspinwall, Navy Bay, on FRIDAY, 2d July at 3 P. M., connecting at Panama with the new double engine steamship WINFIELD SCOTT, 2100 tons burthen, Kenney Couillard, Commander, which steamer awaits the arrival of passengers at Panama by the United States, from New York, and immediately thereafter proceeds to San Francisco direct, without stopping at intermediate ports.

These vessels, in accommodations and safety are not surpassed by any on this route; and as experienced surgeon is attached to each vessel.

The United States has made the voyage between New York and Chagres in seven days nineteen hours, and the Winfield Scott performed the voyage between New York and Panama in the shortest time on record, both as to running and actual time from port to port.

Books are now open, and through tickets for sale. Apply to

DAVIS, BROOKS & CO.,

General Agents, 28 Beaver street,

JONES & JOHNSTON, 104 Wall st.

Corner of Liberty.

Passengers per United States will find a railroad along side the wharf at Aspinwall, and also the Panama Railroad, now opened nearly to Gorgona, thus avoiding the risk attendant upon landing in boats at Chagres, and the river navigation to Gorgona.

Tickets for sale by

C. COOPER & CO., Bangor.

New York, June 11, 1852. apr27

Original Our State,

Cooking Stove!

THIS STOVE is manufactured by the Subscribers with all the care that a large experience in the Stove trade of this city would induce, and we assure our customers and the public that no pains or expense has been spared to make this one of the very best Cooking Stoves ever offered for sale in Bangor.

We have divested this Stove of all superfluities which nothing but the superior quality of work in Moulding, would allow, and it now presents a beautiful, neat and plain exterior, which of all things, has been most desired, by our best House keepers

The above unites with its great capacity for Cooking, renders it safe to say that this whole combined set of Stove makers cannot successfully compete with the

Our State Cook Stove

In its bounty of Castings, Patterns of design, strength, quality and quantity of material and the great size and capacity of its Oven which will contain at one time 5 of the largest size pie plates.

Our rotary sales on this Stove last season was more than 300 and we invariably warranted them to suite our customers 50 days, and not one was returned.

We hold ourselves pledged to furnish promptly all Castings that may be wanted to repair.

We warrant that Stove to prove satisfactory under all circumstances, and are willing to put them up at our own expense, for a trial of 5 or 6 weeks

For sale at the very lowest prices—A large assortment of Cooking, Parlor, Franklin, Box, Cylinder and Air Tight Stoves, Low and mounting Fire Frames, 7 and 8 Cobb's celebrated Ventilating Grates, the best Gambrels ever offered in the market, Sheet Zinc and Lead Pipe and Pumps, Ash, Oven and Boiler doors, Fire Dogs, and a good assortment of Britannia, Japanned and custom made Tea Waiters.

Bangor Air-Tight COOKING STOVE

THE Subscribers have introduced to this city the sole agency of this very desirable Stove to take great pleasure in offering it to my customers and the public. This Stove was made expressly for this eastern market, by the experienced and expert Stove manufacturers Hatch & Whittier, who know, and have appreciated the wants of this enlightened people. It is offered to the public with the full confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its recommendations for Boiling, Broiling, Frying, &c., are unsurpassed, and its extensive and beautiful Oven for Baking and Roasting, will also recommend itself to the Ladies. One very important feature is, it has very stout and smooth cut work, manufactured in this city, can be repaired, if ever necessary, at a trifling expense, without subjecting one to wait for castings ordered from New York, Rhode Island or elsewhere. Every Stove is warranted one year, and if giving entire satisfaction may be returned and the money will be refunded after 30 days trial

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

DR. FONTAINE'S BALM —OF A— THOUSAND FLOWERS.

For the Toilet, the Nursery, for Bathing, and many Mechanical Purposes.

HIGHLY perfumed by its own ingredients (recommended by the faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New York, Philadelphia and Boston,—it is the greatest luxury a lady or gentleman could have for the improvement of health, for comfort and personal embellishment, and its delicate soothing sensation and the delight ful softness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

Already well established by actual experience:

FIRST—*The Balm removes every defect of the Complexion.*

And establishes in its stead Beauty and Health as the time when both, by the changes of age or freaks of nature, or disease, have been obscured and undermined—it cleanses the skin and leaves to the surface all the natural and every specks of impurities and blotches, also removes tan, sunburn, sallowness and freckles—imparting to it skin its original purity and unsurpassed freshness—rendering it clear, smooth, and white.

SECONDLY—*It promotes the Growth and increase of the Hair, causing it to Curl in the most natural manner.*

It cleanses the head from dandruff giving vigor Health and life to the very roots of the hair.

THIRD—*It as a superior article for Shaving being superior to all descriptions of Soaps, Creams, Pastes, &c*

It is a DENTIFRICE for cleansing the Teeth, it is so far the most invigorating of any compound yet known, preventing decay, hardens the gums, sweetens and cleanses the mouth, *maintains genuine and permanent whiteness in order to illustrate correct specimens of opinion and claims.* The experience of sixteen years practice an extensive collection of rare works decisions &c on mechanical subjects the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors of this part of the country Patents can always be procured in the shortest time and on more favorable terms than can be done by those remote from the Patent Office. All persons who may have occasion to employ counsel in procuring Patents in the United States and have no business relations with any other agency in Washington, are invited to call at the office of the subscriber, where they can be assured that their business will be promptly attended to, and at reasonable charges.

Inventors who have made improvements and desire to know whether they are patentable, are advised to send a model or drawing and description of the same, when an examination will be made and the inventor informed, free of charge, whether in the opinion of the subscriber a patent can be obtained or not. Models of inventions should be sent to the office by the inventor, if practicable, or by some safe conveyance to the care of the subscriber. Where this cannot be done, the model may be sent by Express, Boat or Steamer, directed to the subscriber at Washington, D. C. Models should be made of the best workmanship and materials, and as small as will be consistent with their strength and utility. Where the invention is a machine, a model is indispensably necessary to the successful prosecution of the application for a patent. Every part of the model should be so represented in the drawing that the latter may be understood without reference to the model. Drawings should be executed in the most workmanlike manner, and as neatly as possible. The price of drawings is from $10 to $15 when made by the subscriber. Where the model is sent to the office, the price of the drawing will be regulated by the complexity of the case.

When the model is sent to the office, the following fees will be required:

On filing each caveat	$10
On filing application for a patent, except for a design	15
On issuing each original patent	20
On appeal to the Commissioner of Patents	20
On application for the extension of a patent	50
On granting the extension	50
On filing a disclaimer	10
On filing application for the reissue of a patent	30
On application for a design, three years	10
On application for a design, seven years	15
On application for a design, fourteen years	30
On filing a caveat	10
On copy of the claim of any patent	1

All other fees and charges according to the above scale.

Reference is made to the Postmaster at Washington, the Hon. Commissioner of Patents, and to the following gentlemen in Boston, to whom the subscriber is personally known:

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I acted as Commissioner of Patents, R. H. Eddy, of Boston, did business at the Patent Office for procuring Patents. The services of a person acting in that capacity who has had much experience before the Patent Office, and who conducted it with success, I regard as highly important to inventors, and most skilful. Patents are now granted in the United States and have been for some years, to persons who cannot be supposed to possess the requisite skill and attainments for the successful prosecution of their claims, and the consequence is that many inventors who are entitled to patents receive them either tardily and unfavorable, or not at all. The Patent Office is the proper place for the skilful and faithful prosecution of claims, and I take pleasure in recommending Mr. Eddy as a gentleman of integrity and ability, and well qualified for the agency he has established in Boston.

EDMUND BURKE,
Late Commissioner of Patents.
